1. INTRODUCTION

Congratulations on the purchase of a high quality SportsArt product, the N915 Independent Chest Press machine. Constructed of high quality materials and designed for years of reliable performance, this product was made for full commercial use.

Before this product is assembled or operated, we recommend that you familiarize yourself with this manual. Understanding the correct assembly and operation of this product will help ensure that exercisers obtain their fitness goals safely and successfully.

2. SAFETY PRECAUTIONS

This product was designed and built for optimum safety. However certain precautions apply during the use of this product. Please note the following safety precautions:

- Please read the entire manual before assembly and operation. Make sure the product is installed and operated as instructed in this manual.
- Assemble and operate the product on a solid, level surface. Do not use outdoors or near water, including pools and saunas.
- Check the product before every use. Make sure all parts are assembled, and all fasteners are tightened. Do not use the product if it is disassembled in any way.
- Wear proper workout clothing. Do not wear loose clothing. Do not wear shoes with leather soles or high heels. Tie all long hair back. Do not go barefoot on this product.
- Keep away from moving parts. Moving parts may or may not stop immediately if an object becomes caught or impedes normal motion.
- Use this product only for its intended purpose as described in this manual.
- Be careful when mounting and dismounting the unit.
- Never operate this product if it has been damaged in any way. If it is not working properly, or has been dropped or damaged, contact a service technician for repairs.
- Do not use accessories or parts that are not specifically recommended by the manufacturer (SportsArt) . Such parts might cause injuries or cause the unit to fail and void the warranty. We will not be responsible for any safety issue that arises due to the misuse of accessories or parts. At the same time, we will terminate the warranty terms of this equipment.
- This product is not intended for use by persons (including children 12 or younger) with reduced physical, sensory, or mental capabilities, or by people who are otherwise deficient in product knowledge or experience. If such people use this product, they should be given training and be supervised at all times by someone responsible for their safety.
- Children ages 12 or younger should be supervised to ensure that they do not play on or near the product.
- Maintenance and repair must be performed by trained service personnel only. Improper maintenance would not only damage the machine, but also may present a danger to the exerciser.
- The user weight limit for this product is 227 kg (500 lb).
- Warning that any of the adjustment devices that could interfere with the user's movement should not be left projecting.

CAUTION: If you feel any pain or any abnormal sensations, STOP YOUR WORKOUT and consult your physician immediately. Work within your recommended exercise level. DO NOT work to exhaustion. Before beginning any exercise program, you should consult with your doctor. It is recommended that you undergo a complete physical examination.

Over exercise may result in serious injury or death. If you feel faint, stop exercising immediately.

*NOTE: Each machine provides a different resistance ratio of weight stack.

3. LIST OF PARTS

Assembly Parts					
No.	Name	Qty.	No.	Name	Qty.
A1	Weight Stack Frame	1	A6	DWeight Stack Rear Cover	1
A2	Left Foot Connecting Tube	1	A7	118 Oval Foot Cover A	1
A3	Left Handle	1	A8	118 Oval Foot Cover B	1
A4	Foot Rest	1	A9	U Clip	1
A5	Weight Stack Front Cover	1	A10	Ground Fixing Bracket	1

Components In the Hardware Kit				
No.	Name	Qty.	Specification	Notes
10	Round Labels	2	D25	
11	Push rivets	2		
	L-shaped Allen wrench	1	(M5)	
	L-shaped Allen wrench	1	(M6)	
	Double open-end wrench	1	(8*10)	
	Double open-end wrench	1	(8*17)	
19	Cap nut	1	(12*15)

	Cover	φ65	
	Flat washer	D40*d30.5*t1.0	
	Wave washer	D38*d30	
22	Round head inner hex screw	M8*P1.25*L30	
	Spring washer	M8	
	Flat washer	D17*d8.3*t2	
23	Pin	D8*L50	
	Flat washer	D15*d6.5*t3.0	
	Spring washer	M6	
	Nylon hex nut	M6*P1.0*6	
25	Mushroom top Phillips screw (heat treatment)	M5*0.8*L15	
	Flat washer	D13*d6*t1.0	

4. ASSEMBLE THE PRODUCT

Follow instructions below to assemble this product. Note that in this manual the words “left” and “right” are used to refer to the product and its parts. As such, these designations correspond to the “left” and “right” sides of a person in position to exercise on this product. Also, for brevity, the word “screws” or “nuts” is used where washers and other hardware may be involved.

STEP 1 Install the Left Handle

Follow instructions (a) through (b) to install the left handle.

(a) Remove screws (20)(21) from the weight stack frame (A1).

(b) Attach the left foot connecting tube (A2) and the left handle (A3) onto the weight stack frame (A1), use the screws (20)(21) to secure the assembly and then put the round labels (10) on the screws.

STEP 2 Install the Foot Rest and the Belt

Follow instructions (a) through (c) to install the foot rest and the belt.

- (a) Remove screws (22) from weight stack frame (A1) and the left foot connecting tube (A2).
- (b) Secure the foot rest (A4) using screws (22).
- (c) Remove screws (23) from the left handle (A3), then secure the belt to the left handle assembly (A3) using screws (23).

STEP 3 Install the Weight Stack Covers

Follow instructions (a) through (b) to install the weight stack covers.

- (a). Attach both front and rear weight stack covers (A5)(A6) onto the weight stack frame (A1). (Note: before attaching the front weight stack cover (A5), make sure the inside hanger is hooked to the frame).
- (b). Attach the oval foot covers (A7)(A8) onto the weight stack frame (A1) legs. Align the ends before using push rivets (11) to secure the foot covers together.

Note: If the holes don't match up while installing the oval foot covers, change their direction and put them back in a new way. The cutout should face the inner side of the foot tube.

STEP 4 Install the Cap Nut

After completing the assembly, install the cap nut (19) as shown in the following figure.

Note: Make sure the cap nuts and screws are size-matching.

STEP 5 Secure the Unit

Please follow the instructions (a) through (c) to secure the unit and make sure it is firmly fixed to the floor when operating.

(a) Remove screws (24) from the ground fixing bracket (A10).

(b) Insert the U clip (A9) onto the machine (Make sure the U clip is in the correct direction as shown below), and then secure the ground fixing bracket (A10) with screws.

(c) Secure the ground fixing bracket to the floor with the ground fixing bolt, nut and washer.

(Note: The screw hole of ground fixing bracket is $\varnothing 9\text{mm}$, make sure you use the suitable ground fixing bolt and drill the proper hole on the floor.)

STEP 6 Seat Height Adjustment Instructions

- * When adjusting the seat height, pull out the seat lever and use the lever to adjust the seat height. Once the seat is properly adjusted for your height, lock and secure the seat lever in place.
- * If the seat has not been used for a long time, or the height adjuster moves unsmoothly, try pressing and holding down the seat several times before adjusting seat height.

STEP 7 Check the Unit

After completing the assembly, check the level and determine which corner of the unit needs adjusting. If the ground has a slight incline or is uneven, slipping some kind of shim under one of the legs until you have got it leveled. Also, remember to check the belt for correct tension. If the belt is sagging noticeably and lever arms do not engage the weight stack immediately, the belt should be tightened. If you cannot insert the selector pin easily, the belt has been over tightened. In either situation, the unit is not level and need readjustment.

STEP 8 Belt Tension Adjustment Instructions

1. After finishing installation and the final positioning of the equipment, perform the whole-machine-test to ensure it works properly.
2. If the belt tension is incorrect, perform the modification adjustment: First loosen nut A then adjust nut B (as shown in the figure).

Note that if the belt is too long, adjust the nut down, and vice versa. Once the belt reaches the desired position, tighten nut A to secure the belt length.

Note: After adjusting the belt, the gap between nut A and B must be within 35mm(1.4").

3. After finishing the above adjustments, perform the whole- machine -test again to ensure the unit functions properly.

STEP 9 Unit Inspection

After completing the assembly or regular maintenance, please follow instructions (a) through (c) to inspect the unit. If the unit is disassembled or has been damaged in any way, it might cause injuries or cause the unit to fail.

- (a) Make sure the unit is steady and is on a level surface. If not, make adjustments according to the instructions “Secure the Unit” in this manual.
- (b) Make sure all parts are assembled and all fasteners are tightened.
- (c) Please follow operating instructions to test operation and make sure that the equipment is working properly. (Please refer to “Operate the Product” in this manual.)

5. OPERATION THE PRODUCT

This section includes operational instructions.

OPERATION Safety Operating Area

- (a) Safety clearance required is shown below. Do not allow access for people to near this area when operating.
- (b) Noise emission under load is higher than without load.
- (c) Over exercise or improper workout position may result in serious injury.
- (d) This equipment is intended to build chest muscles.

OPERATION **Exercising Instructions**

- (a) Select the appropriate weight stacks according to your recommended exercise level.
- (b) Adjust the seat height to the most comfortable position and make sure the knob is engaged to secure the position.
- (c) Perform the exercise in a controlled manner. Inhale when pushing up against resistance and exhale when returning to original position.
- * Always workout at a level that is tolerable, to stay in the proper training zone for your body. DO NOT work to exhaustion.
- * Use equipment ONLY under the supervision of trained and qualified instructors for safety reasons.
- * Please follow operating instructions on the product sticker to test operation and make sure the equipment is working properly.

6. MAINTENANCE

This section covers maintenance topics and includes a maintenance schedule, task list, and log.

MAINTENANCE Safety Precautions

- Please follow standard safety precautions when servicing on this product.
- Do NOT use a damp towel to clean the product and do perform the following maintenances.
- Do NOT use cleaners with alcohol, ammonia, or other damaging chemicals. The use of such chemicals can damage the product and void the warranty. Never spray or pour any liquid directly onto the product. Doing so can damage components and void the warranty.
- Use a clean, lint-free towel, dampened with a mixture of Simple Green® all-purpose cleaner, to thoroughly clean the handlebar and the console.
- This product has moving parts that can be hazardous. Exercise caution when maintaining, operating, or moving this product.
- Do not use accessories or parts that are not specifically recommended by the manufacturer (SportsArt). Such parts might cause injuries or cause the unit to fail and void the warranty. We will not be responsible for any safety issue that arises due to the misuse of accessories or parts. At the same time, we will terminate the warranty terms of this equipment.
- Maintenance and repair must be performed by trained service personnel only. Improper maintenance would not only damage the machine, but also may present a danger to the exerciser.
- Keep this product out of use until maintenance is completed.

MAINTENANCE Guide Rod Cleaning and Lubricating

1. Please clean and lubricate the guide rod once a week.
 - (a) Use a clean, lint-free towel to apply the lubricant onto the guide rods.
 - (b) Test the weight stacks on the guide rod and make sure the weight stacks move smoothly.
 - (c) Repeat step (a) and (b) 2-3 times.
2. Ensure proper settling of the belt tension after maintenance.

MAINTENANCE Important Note

1. Once the machine belt reaches the warranty period, replace the belt immediately.
2. Safety belt inspection: After a one-year period of usage, check the belt weekly for standard inspection. (The actual frequency of inspection depends upon the frequency of use)

Refer to the figure below for belt inspection: (A) the belt, (B) the belt extension.

Note: If you have a damaged or worn belt, stop using the equipment and replace the belt immediately.

MAINTENANCE Schedule

If there is a need for maintenance of components, please visit the SportsArt website.

cleaning requirements

1.directive 93/42/CEE

2.directive biocide 98/8/CEE

The disinfectant has to be in compliance with Medical Device Directive 93/42/EEC (MDD) and Biocidal Products Directive 98/8/EC (BPD).

It is suited for sensitive synthetic surfaces such as synthetic leather, polycarbonate (PC), acrylic glass and polysulfone, and for the keyboards and control panels.

	Area	Day	Week	Month	Quarter	Year	Notes
1	Exterior	•					Clean.
2	Screws	•					Inspect and secure loose parts
3	Testing	•					Use performance testing to make sure the machine works as expected.
4	Cushions	•					Use a cloth moistened with water then wrung well, and wipe the cushions gently
5	Belt		•				Check for damage or wear. If so, replace it with a new one
6	Guide Rod		•				Clean and lubricate
7	Seat tube		•				Clean and lubricate

MAINTENANCE Task List

Like cars, fitness products require maintenance. Regular maintenance extends product life, and failure to maintain products can void the manufacturer's warranty. Copy the maintenance log sheet, and record maintenance work for each fitness product.

Daily tasks

1. Use a clean, lint-free towel to wipe down the product exterior.
2. Inspect all screws. Secure if necessary.
3. Make sure the machine is working properly.
4. Wipe cushions clean with a damp cloth.

Weekly tasks

1. Check the belt for damage or tear.
2. Clean and lubricate guide rods.
3. Clean and lubricate seat tube.

Caution

- Please follow standard safety precautions when working on this product.
- Do NOT use cleaners with alcohol, ammonia, or other damaging chemicals. The use of such chemicals can damage the product and void the warranty. Never spray or pour any liquid directly onto the product. Doing so can damage components and void the warranty. Never spray or pour any liquid directly onto the product. Doing so can damage components and void the warranty.

7. CONSIGNES DE SÉCURITÉ IMPORTANTES

Le produit SportsArt a été conçu et fabriqué afin d'assurer une sécurité optimale. Cependant certaines précautions s'appliquent chaque fois que vous utilisez votre produit.

- Lisez entièrement le manuel avant l'assemblage et l'utilisation. Veuillez aussi noter les consignes de sécurité suivantes:
- Veuillez lire attentivement les instructions et installer le produit selon les instructions.
- Assemblez et faites fonctionner le produit sur une surface solide et plane; NE PAS l'utiliser à l'extérieur ou près de l'eau.
- En aucun cas, ne laissez des enfants à proximité ou sur le produit.
- Vérifiez le tapis de course avant chaque utilisation. Assurez-vous que toutes les pièces sont assemblées et que tous les éléments de fixation sont serrés. NE PAS utiliser le produit si l'appareil est démonté de quelque façon.
- Gardez vos mains loin des pièces mobiles.
- Portez des vêtements d'entraînement appropriés; NE PORTEZ PAS de vêtements amples. NE PORTEZ PAS de chaussures à semelles en cuir ou à talons hauts. Attachez les cheveux longs.
- Soyez prudent lors du montage et démontage de l'appareil.
- NE PAS utiliser d'accessoire non spécifiquement recommandé par le fabricant. Car cela pourraient provoquer des blessures ou entraîner une panne de l'appareil.
- Débranchez l'appareil de la prise avant l'entretien ou la suppression de toute pièce.
- Une surveillance étroite est nécessaire quand de produit est utilisé par ou à proximité d'enfants, de malades ou de personnes handicapées.
- Utilisez ce produit uniquement pour l'usage prévu dans ce manuel.
- La limite de poids de l'utilisateur pour le produit est de 227 kg, 500 lb.
- Ce produit n'est pas destiné à être utilisé par des personnes (y compris des enfants) dont les capacités physiques, sensorielles ou mentales sont réduites ou qui ne disposent pas de l'expérience ou du savoir nécessaires, sauf si celles-ci ont au préalable été formées eu égard à l'utilisation de produit par une personne responsable de leur sécurité.
- Les enfants doivent être encadrés afin d'empêcher qu'ils ne jouent avec le produit.
- Ce produit n'est pas destiné à être utilisé par des personnes (y compris des enfants) dont les capacités physiques, sensorielles ou mentales sont réduites ou qui ne disposent pas de l'expérience ou du savoir nécessaires, sauf si celles-ci ont au préalable été formées eu égard à l'utilisation de ce produit par une personne responsable de leur sécurité.
- Les enfants doivent être encadrés afin d'empêcher qu'ils ne jouent avec le produit.

ATTENTION

Si vous ressentez une douleur ou si vous avez une sensation anormale, **ARRÊTEZ VOTRE ENTRAÎNEMENT** et consultez immédiatement votre médecin. Entraînez-vous à votre niveau d'exercice recommandé. NE PAS s'entraîner jusqu'à l'épuisement. Avant de commencer un programme d'exercice, vous devriez consulter votre médecin. Il est recommandé de faire un examen physique complet. Dans ce manuel, les mots "gauche" et "droit" sont utilisés en référence aux pièces et au produit. Comme tels, les mots "gauche" et "droit" font respectivement référence aux côtés gauche et droit de l'exerciseur. De même pour plus de concision, le mot «vis» est utilisé dans certains cas où des rondelles, des vis et autres matériels sont associés.
